

Emperor Masonry Cleaner

Emperor® Masonry Cleaner is a solution that cleans, disinfects and protects against green contamination growth on masonry, wood and other exterior surfaces.

Preparation: Ensure the surface is dry prior to the treatment.

Application: Use low-pressure pump, sprayer, brush or roller. A minimum temperature of 0°C is needed.

Recommendation: Always make a test coat to ensure the compatibility of product and surface. Spreading rate: 4-6 m² per litre.

Equipment care: All equipment should be cleaned in water directly after use.

Security: Wear protective gloves and goggles during application.

Environment: Not for use in aquatic environments e.g. fishing lakes.

Properties

- Based on the latest technology
- Scientifically engineered to protect mineral surfaces by active binding
- Specifically designed for bricks, concrete and mineral surfaces
- Works very actively against re-growth of moss, algae and lichens

*when applied in accordance with the manufacturer's datasheet
