

# Exterior Wood Waterproofer

**Emperor® Exterior Wood Waterproofer** is a clear, wood waterproofing treatment for exterior timber such as fencing, cladding, sheds, garden furniture, decking, fascia, wooden beams and log cabins, with a 10 year manufacturer guarantee and a proven 25+ year performance in harsh weather conditions.

**Preparation:** Ensure the surface is dry prior to the treatment.

**Application:** Use low-pressure pump, sprayer, brush or roller. A minimum temperature of 5°C is needed.

**Drying time:** Approximately 1 hour at temperatures of 20°C.

**Spreading rate:** 5m<sup>2</sup> per litre.

**Equipment care:** All equipment should be cleaned in water directly after use.

**Security:** Wear protective gloves and goggles during application.

**Environment:** Not for use in aquatic environments e.g. fishing lakes.

## Properties

- Based on the latest technology
- Scientifically engineered to protect mineral surfaces by active binding
- Specifically designed for exterior wood
- Protects against re-growth of moss, algae and lichens

\*When applied in accordance with the manufacturer's data sheet
